

~~CONFIDENTIAL~~

OD&E-0403-87

23 December 1987

MEMORANDUM FOR: Director of Information Technology, DDA

VIA: Director of Development and Engineering

FROM:

[redacted]
Deputy Director for System Operations, [redacted]

25X1

25X1

SUBJECT:

Staffing [redacted] Registry Positions [redacted]

25X1

1. As you can appreciate, current staff ceiling restrictions affecting the Agency have had a considerable impact on OD&E. In seeking to cope with the problem of temporary overstaff situations elsewhere in the Office, we have been forced to consider all available options. In this regard we note that four GS-06 Information Control Clerk positions in [redacted] Registry have remained unfilled for some time. Efforts to date to fill the positions have not been successful, and the current staff personnel are working overtime to meet their commitments. [redacted]

25X1

25X1

2. We place great value on OIT's support to OD&E, particularly in the important areas of the Information Control and Registry support provided to us. Naturally we wish to see the four currently vacant Information Control positions filled at the earliest possible opportunity with quality OIT candidates. While we understand recruitment difficulties associated with the Information Control job skill, we request your determination on filling these positions during the remainder of FY-88. If you are unable to fill these positions, we are considering using these positions to cover staffing overages in OD&E's Table of Organization and seeking other resources to reduce the stress on Registry personnel and minimize the risks to our mission. [redacted]
